SDG Goal 11	Sustainable cities and communities
SDG Target 11.7	By 2030, provide universal access to safe, inclusive and accessible, green and public spaces, in particular for women and children, older persons and persons with disabilities
SDG Indicator 11.7.2	Proportion of persons victim of physical or sexual harassment, by sex, age, disability status and place of occurrence, in the previous 12 months
Time series	Victims of physical harassment

1. General information on the time series

- Date of national metadata: 7 December 2022
- National data: http://sdg-indicators.de/11-7-2/
- Definition: The time series measures the total number of victims of physical harassment. The following offence keys are considered as physical harassment, according to the national catalogue of criminal offences: Until 2016, 232400; from 2017: 232400 and 114000. The here presented total number of victims includes completed as well as attempted offences.
- Disaggregation: age group; sex

2. Comparability with the UN metadata

- Date of UN metadata: November 2018
- UN metadata: https://unstats.un.org/sdgs/metadata/files/Metadata-11-07-02.pdf
- The time series is compliant with the UN metadata.

3. Data description

- The data is derived from the Police Crime Statistics (PCS) by the Federal Criminal Police Office (BKA). The PCS covers known criminal offences, victims and suspects. It includes attempts as well as completed offences for every year. Since the data is summarising only cases which were brought to the attention of the police, our numbers underestimate the real situation.
  If a person is a victim of more than one crime or repeatedly victim of the same crime, it is counted multiple times.

6. Timeliness and frequency

- Timeliness: t + 4 months
- Frequency: Annual

7. Calculation method

- Unit of measurement: Number
- Calculation:

$$\textbf{Physical harassment} = \sum_i \text{Victims of physical harassment (offence key } i) \text{ [number]}$$

i = 232400; 114000 (since 2017)
